Company Overview

Mission Statement

RK CONVEYORS is devoted to the design and installation of GOH Racking and Overhead Conveyor Systems.

Our products are characterized as being technologically advanced, of the highest quality and reflecting superior engineering.

Our marketplace is global. Our business philosophy entails being in partnership with our customers in providing products that make them successful.

We intend to maintain a level of profitability and return on investment that will support our growth strategy and place us among industry leaders.

We are dedicated to treating customers with respect and fairness, to earn their trust and acceptance. We honestly and aggressively pursue these principles as we strive for our success and that of our associates.

“NLS” National Logistics of **AMERICAN EAGLE**, Canada’s largest GOH distribution centre utilizes

RK TELESCOPIC EXTENDIBLE TRUCK LOADING BOOMS for their Shipping & Receiving

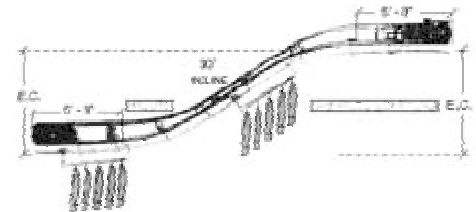

to extend trolley rails into trailers. Furnished with roller hangers for temporary suspension in trailers while in loading docks. The extremely low friction design of our high tensile strength Roller Hangers have proven and ensured many years of trouble free service. Smooth running, capable of carrying heavy loads. All material is Zinc Plated. Up to 40’ in length or custom is available.

Sectional Loading Boom is also available in 6’ length for portable extension of trolley rail into trucks. Used primarily where loading docks are short, truck head room low, or for occasional use.

Powered, TROLLEY BOOSTER CONVEYOR

is specifically designed for department stores, garment manufacturers, garment distribution centers, uniform rental, etc., to move speed rail trolleys between floors and floor to mezzanines.

Suitable for continuous operation. High capacity, 30'/ minute. Up or down. Elevation changes to 20' – Incline 30°. Quiet, Lubrication free operation.

Single line reversible model

RK Trolley Booster conveyor
